REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Applicants' arguments of 6/7/11 have been entered into the application.

Applicants are correct that the composition of claim 63 (renumbered claim 1) does not require a specific functionality for patentability, e.g., the structure/product is novel. The effect of PLG on the PRP to adjuvant is not material to the patentability of the novel compound recited in claim 63 (renumbered claim 1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
